Premium Enhanced Cat.5e Patch Cables

Premium Enhanced Cat.5E Patch Cables

Available in 14 colours the extensive range of patch cables are designed for new generation networking. Each cable is manufactured to the highest standards and specification from stranded Cat.5E cable and 50 micron gold plugs. They are fully tested and fitted with short bodied connectors and integral strain relief boots.

Features:

- Designed for advanced bandwidth frequency systems & increased network speeds
- Manufactured using quality component parts: **Connectors: 50 micron gold RJ45 plugs, Cable: UL approved Cat.5 Enhanced stranded cable**
- To reduce crosstalk, short bodied connectors maintain speed & data integrity
- Moulded design suitable for advanced and new build
