ROLINE 11.02.8321 - Lightning to USB cable for iPhone, iPod, iPad 1 m

Description

- Lightning is a proprietary computer bus and power connector created by Apple Inc. to replace its previous proprietary 30-pin dock connector, intended to connect mobile devices like iPhones to host computers.
- Using 8 pins instead of 30, Lightning is significantly more compact than the 30-pin dock connector and can be inserted with either side facing up
- For the connection of devices like the iPhone 5, iPod Touch (5th generation), the iPod Nano (7th generation), the iPad (4th generation), and the iPad Mini
- It is NOT compatible with cables and peripherals designed for its predecessor, unless used with an adapter
- High quality USB cable with one Type A (male) and one Lightning connector
- Improved shielding
- Meets standard USB 2.0 (transfer rate up to 480 Mbit/s)
- Colour: white

Technical Data

Left Connector Type	USB 2.0 Type A
Right Connector Type	Lightning Connector
Right Connector Gender	Male
Left Connector Gender	Male
Area of application	External
Colour (Cable)	white
Cable shielding	Screened
Length	1.0 m
Max. bandwidth	480 MBit/s
Product group	Cable
Product type	Lightning cable
Conveyance good	No
side 1 connector	Type A Male
side 2 connector	Micro USB B M

We reserve the right to amend typing errors/mistakes to price lists and technical data at any time. Pictures can be different from the original.
