CORCOM FILTERS - BCFXR

TE Connectivity (TE)'s new addition to the BCF family, BCFxR series addresses with the leakage current requirements of system level standards, such as IEC950 and IEC601. The reduced leakage current will eliminate nuisance tripping of Residual Current Breakers and Ground Fault Interrupt Circuit Breakers. In addition, these low leakage current, low-weight, 3-phase Delta EMI filters come with either screw terminals (BCF6R) or touch safe terminals (BCF10R). These filters are used to reduce noise emissions typically associated with variable speed motors used in process automation equipment, elevators and alternative energy applications.

Applications

- **3-phase inverters & converters**
- **Variable speed motor drives**
- **Process automation equipment**
- **Elevators & escalators**
- **Machine tools**

Electrical

• **Current Rating:**	7 to 180A
• **Voltage Rating:**	Phase to Phase: 480 VAC Phase to Ground: 277 VAC
• **Operating Frequency:**	50/60 Hz
• **Operating Temperature:**	-10°C to +50°C

Mechanical

- **Screw mounting (flange)**
- **Touch safe terminals (BCF10R)**
- **Threaded bolts (BCF6R)**

Product Specifications

- **UL, CSA & VDE**

Benefits

- Help save space with a compact, light-weight book-form design
- Provide an easy connection and prevent inadvertent contact with touch safe terminals (BCF10R)
- Provide an easy connection to ring terminals with threaded bolts (BCF6R)
- Prevent nuisance tripping of Residual current- and Ground Fault Interrupt Circuit Breakers by significantly reduced leakage current

Ordering Information

100 BCF 10 R

Suffix 1
Omit: Standard Version
R: Limited Leakage Current Version

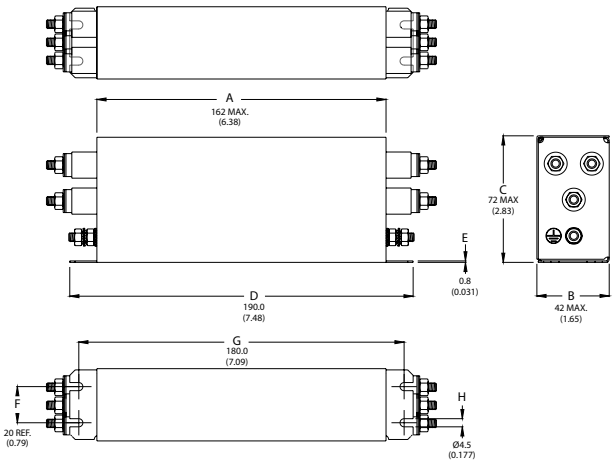

Terminal Type
6 - Threaded Studs
10 - DIN Type Terminal Blocks

BCF Series

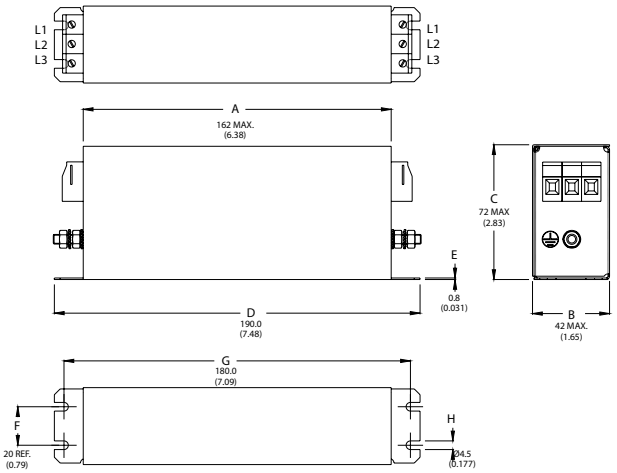

Current Rating
7, 16, 30, 42, 55, 72, 100, 130, 180A

Dimensions

7BCF6R

7BCF10R
