967 SPKL TORX® BO L-key Multicolour, BlackLaser, TX 8 x 76 mm

L-Keys for TORX® Screws

BALL END

TAKE IT EASY TOOL FINDER

EAN:	4013288172679	**Size:**	77x18x4 mm
Part number:	05024350001	**Weight:**	7 g
Article number:	967 SPKL TORX® BO Multicolour	**Country of origin:**	CZ
		Customs tariff number:	82054000

- L-key for TORX® socket screws with safety pin
- TORX® ballpoint on the long arm
- Colour coded, easy-to-grip plastic sleeve, even at low temperatures
- Wear-resistant size marking
- BlackLaser for high corrosion protection and long service life

Wera L-keys with finger-protecting plastic sleeves. This means they are ergonomic and pleasant to grip even in cold temperatures. At one end a TORX BO profile: the bore hole in the bit and safety pin in the TORX® BO screw prevents any unauthorised loosening. Tamperproof fastening! The ballpoint on the long arm allows dependable working on TORX screws even in difficult installation situations. The BlackLaser surface treatment provides outstanding surface protection, even against corrosion, and a long service life. Laser-engraved and thereby wear-resistant size markings on the L-keys for rapid accessing.

L-Keys for TORX® Screws

L-key for TORX® socket screws with safety pin

SPKL L-keys

L-keys made from circular material fit into the hand better and allow less strenuous work over a longer period. Additionally, the rubber sleeve provides a pleasant grip, particularly in applications at low temperatures. Colour coding and large stamp enable the desired L-key to be easily located. Moreover, the round material keys are more robust, particularly where smaller sizes are concerned.

TORX® with borehole (BO)

TORX® tools with a borehole prevent the unauthorised unfastening of safety screws. The screws contain a pin that protrudes into the drive profile so that “normal” TORX® tools cannot be used. This pin fits into the borehole of TORX® BO tools allowing safety screws to be unfastened.

TORX® ball tip

The spherical drive profile means that it is possible to swivel the axis of the tool to that of the screw, and therefore enable angled, “around-the-corner” screwdriving jobs.

Size identification

The size of each L-keys has been engraved by a laser. In addition SPKL L-keys have a colour coding according to sizes – for simple and rapid accessing of the required tool. Making it easy to find the right tool.

Take it easy tool finder system

Take it easy tool finder system - with profile and size colour-coding for quick and easy tool selection. Colour-coded system for hexagon drive screws (L-Keys, Zyklop bit sockets), external hex drive screws and nuts (Joker wrenches, Zyklop sockets and Zyklop bit sockets with holding function), and TORX® drive screws (L-Keys, Zyklop bit sockets).
