Fax: 508-339-6356
www.murata.com

ULT-3.3/7.5-D48NM-C
Production Status
Date: January 1, 2023

Subject:
Return to Production

To Whom it many concerns:

Murata Power Solutions (MPS) initially identified the subject model (ULT-3.3/7.5-D48NM-C) as target for end of life (EOL). Upon further investigation identifying several customers who have recently designed this product into their systems MPS has decided to keep this product active with an expected life of 3-5 years.

We apologize for the confusion regarding this matter and will ensure availability of the part for 3-5 years from January 1, 2023

As always, MPS is dedicated to providing outstanding customer service and quality products to the electronics industry.

Sincerely,

William Smith

Sr. Product Manager
